

KDG AFRICA LTD.

Company Profile

ABOUT US

“We envision a future where our logistics solutions empower businesses to thrive in a rapidly changing world.”

SEAMLESS LOGISTICS SOLUTIONS ACROSS AFRICA

At KDG Africa, we believe logistics is more than just moving goods – it's about building trust, ensuring reliability, and driving business growth. With decades of expertise inherited from our parent company, Kapoor Diesel Garage (India, est. 1952), we specialize in fuel transport, container logistics, dry cargo, warehousing, and end-to-end supply chain solutions across East Africa.

With our base in Dar es Salaam and strong operations in Zambia and beyond, we're positioned to meet Africa's growing logistics needs with technology-driven services, a dedicated team, and a fleet that never stops moving.

With a strong presence in Tanzania and Zambia, KDG Africa is your trusted partner for comprehensive logistics solutions. Our services include transportation of bulk fuel, containers, and dry cargo, efficient warehousing, and a range of value-added services (VAS) such as customs clearance and multimodal transportation.

OUR MISSION

To deliver safe, efficient, and cost-effective logistics solutions that support businesses and drive growth across Africa. We are committed to operational excellence, customer satisfaction, and sustainable practices in all our logistics services.

OUR VISION

Our Vision is to be the clear choice for customers by offering comprehensive logistics solutions through innovative and dependable services.

DELIVERING RELIABILITY ACROSS EVERY MILE

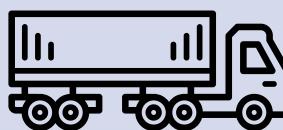

At KDG Africa delivers comprehensive transportation solutions across East and Southern Africa, specializing in petroleum, container and flatbed logistics. With a modern fleet, advanced tracking systems, and decades of expertise, we ensure cargo moves safely, efficiently, and on time.

Our services are designed to meet the diverse needs of businesses while upholding the highest standards of reliability, safety and customer satisfaction.

PETROLEUM LOGISTICS

Reliable bulk fuel transportation with strict safety, compliance and timely delivery standards.

CONTAINER LOGISTICS

Seamless container movement ensures efficiency, security and smooth end-to-end cargo handling.

FLATBED LOGISTICS

Safe transport of oversized and heavy cargo with customized flatbed fleet solutions.

OUR OFFERINGS

TRANSPORTATION

We are a leader in road cargo solutions, offering safe, timely, and damage-free deliveries. Our 100+ vehicles, supported by automated monitoring and GPS tracking, we offer:

- Bulk Fuel Logistics
- Container Transport
- Dry Cargo
- Flatbed Cargo
- Cross Border Deliveries in East Africa

WAREHOUSING

Our strategically located warehouses are designed to improve productivity and lower costs, supported by:

- Efficient Inventory Management
- Tech enabled tracking systems
- Systematic operations and performance marketing
- Secured storage for bulk and specialised goods

VALUE-ADDED SERVICES (VAS)

We go beyond traditional logistics with tailored solutions, including:

- Custom clearance and documentation
- Multimodal transportation
- Reverse logistics
- Specialised handling for complex supply chains

END-TO-END SOLUTIONS

Integrated, single-window logistics management that reduces the need for third-party dependency, helping clients save time, cut costs, and scale faster.

- Supply chain management
- Logistics strategies
- Shoora Real-time tracking & analytics
- Dedicated customer support

WHY KDG

Reliability & Safety

We prioritize the safety of your goods and ensure timely deliveries through our well-maintained fleet and trained personnel.

Technology-Driven Solutions

We leverage the latest technologies like AI powered predictive decision-making, in-vehicle intelligence, GPS and object recognition from Shoora.

Extensive Regional Network

Our extensive regional network ensures that we can meet your logistics needs, no matter where you are located.

Sustainability Commitment

We are committed to sustainable logistics practices that minimize environmental impact while maximizing efficiency and cost-effectiveness.

SAFETY & COMPLIANCES

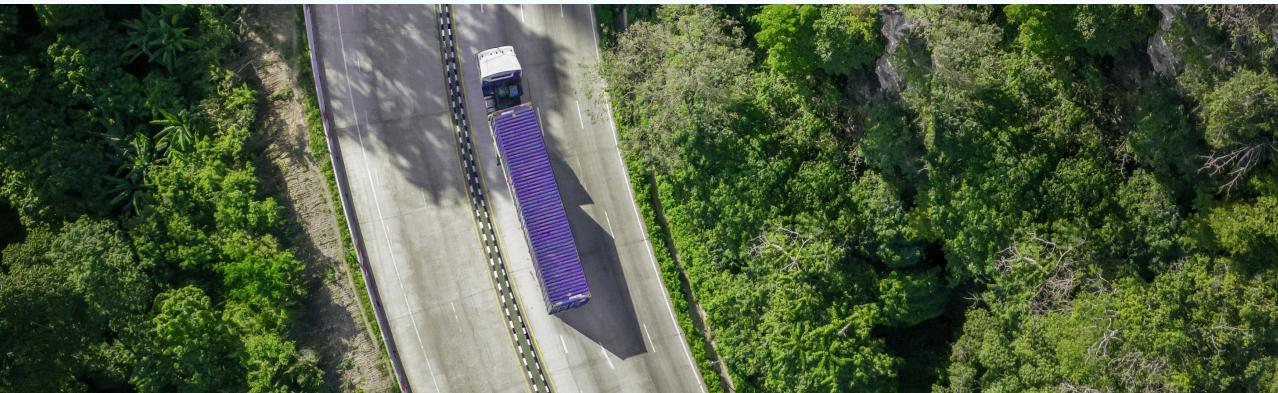

“We believe that a secure working environment leads to better productivity and peace of mind for our employees and partners.”

Our logistics operations are designed with a primary focus on safety across all activities. We adhere to stringent safety protocols and invest in advanced technologies to safeguard our processes.

Our dedicated safety team conducts regular training sessions, risk assessments, and emergency response drills to ensure that every step of our logistics chain operates without compromising safety.

- Stringent safety protocols across transport and warehousing.**
- Regular training, risk assessments, and emergency drills for all teams.**
- Advanced monitoring systems to ensure goods and people are protected.**

Driving sustainable logistics with reduced carbon footprint.

Implementing green technologies and eco-friendly practices.

Partnering with eco-conscious suppliers and clients.

YOUR ECO FRIENDLY TRANSPORT PARTNER

We are committed to developing efficient and eco-friendly operations that simplify logistics complexities. Our approach includes optimizing routes to reduce fuel consumption, investing in green technologies, and minimizing waste through recycling and sustainable packaging solutions. By continuously improving our environmental performance, we aim to set new standards in eco-friendly logistics, contributing to a healthier planet for future generations.

Our key responsibilities towards environment

✓ Optimizing routes to cut fuel usage and emissions.

✓ Introducing eco-friendly packaging and recycling practices.

✓ Investing in green technologies to support cleaner supply chains.

✓ Collaborating with partners who prioritize sustainability.

✓ Engaging with local communities to promote environmental awareness.

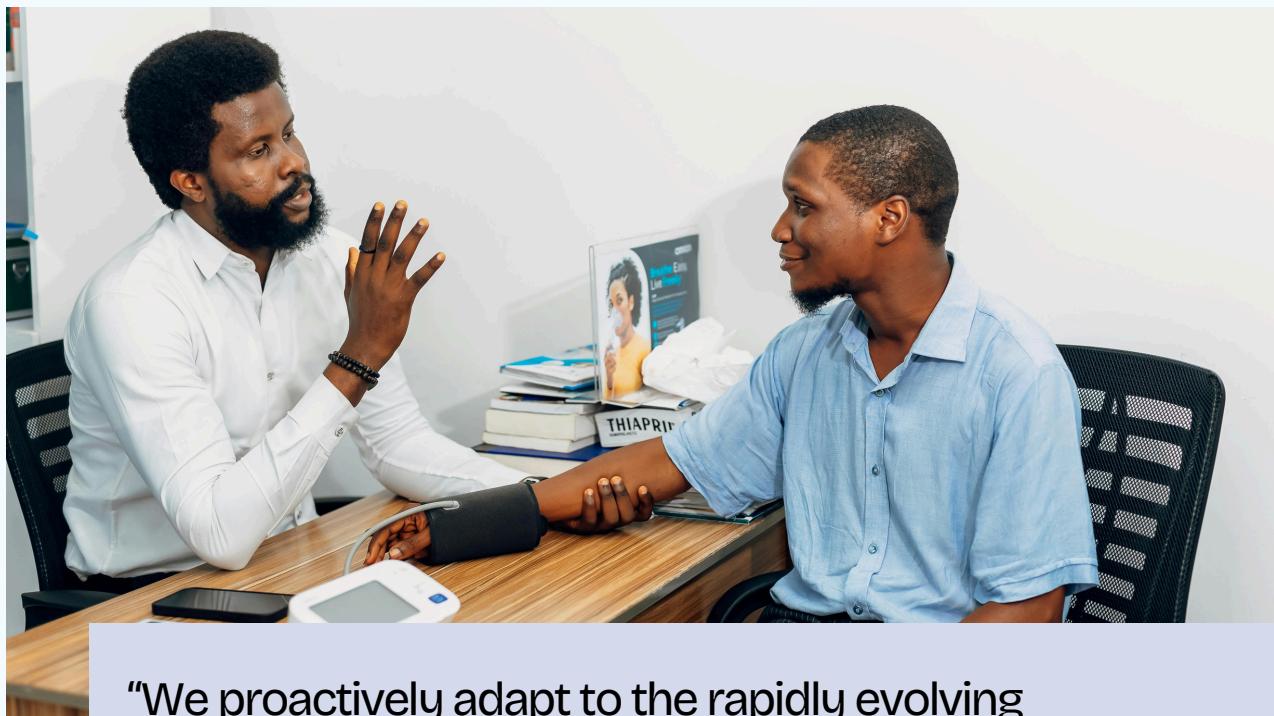

OUR COMMITMENT

- We are steadily moving towards emission-free fleets.
- We are expanding the use of renewable energy sources in our operations.
- We are working with local communities on environmental conservation initiatives.
- Stringent safety protocols across transport and warehousing.
- Regular training, risk assessments, and emergency drills for all teams.
- Advanced monitoring systems to ensure goods and people are protected.

HEALTH

By closely monitoring environmental trends and regulatory changes, we implement health-conscious practices in our logistics operations. This includes regular health checks for our team, promoting a clean and safe working environment, and utilizing eco-friendly materials that reduce harmful emissions and pollutants.

"We proactively adapt to the rapidly evolving environmental needs to ensure the well-being of people."

Promoting safe and healthy workplaces with regular employee health checks.

Creating clean, safe working environments for long-term well-being.

Engaging employees in health and safety initiatives.

Continuous improvement based on health and safety feedback.

Adopting eco-friendly practices that reduce exposure to harmful emissions.

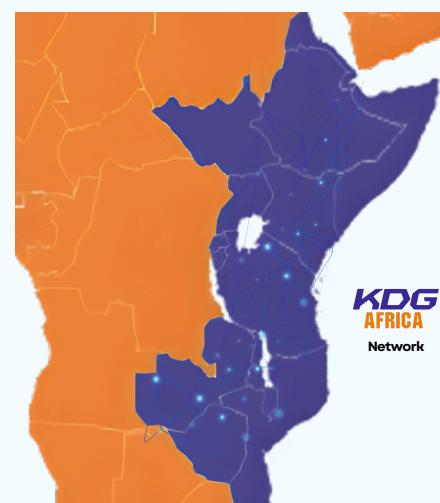

CORE VALUES

Unwavering Service Excellence - Precision, minimal transit times, and high accuracy through tech-enabled operations.

Customer-Centricity - Flexible and customized solutions designed to fit each client's needs.

Transparency & Visibility - Real-time GPS tracking and reporting at every stage.

Efficiency & Profitability - Reducing costs, increasing speed, and boosting client profitability.
